1 - PALLATIUM

ULTRA FORSTÆRKET BELÆGNING

Pallatium er en tre-lags, forstærket nonstick belægning, der er 3,5 x bedre end andre belægninger. Dens grundlak er usædvanligt hård, mens dens topcoat er rig på fluorpolymere der er særlig udviklet til at slippe maden. Dens suveræne holdbarhed gør den perfekt til daglig brug.

ULTRA REINFORCED COATING

Pallatium is a three-coat, internally reinforced nonstick that outlast other coatings by 3.5x. Its basecoat is unusually hard while its topcoat is rich in fluoropolymers dedicated to release. Its remarkable durability makes it perfect for everyday use.

2 - ALUMINIUM

QUICK HEAT
DISTRIBUTION

HURTIG VARMEFORDDELING

Aluminium som en fremragende varmeleder, der øger varmfordelingen af køkkengrej jævnt uden hot spots.

QUICK HEAT DISTRIBUTION

Aluminium as an excellent heat conductor, evenly enhancing heat distribution of the cookware with no hot spots.

3 - STAINLESS STEEL

KLAR TIL INDUKTION. HOLDBAR.

Magnetisk rustfrit stål gør køkkengrej egnet til alle kogeplader med induktion. Det er usædvanlig holdbar og praktisk talt umulig at slide op.

INDUCTION READY. DURABLE.

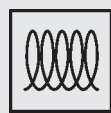

Magnetic stainless steel layer makes cookware suitable for all hobs with induction included. It is exceptionally durable and virtually impossible to wear.

ILAG® ULTIMATE COATING

🇩🇰 KERAMISK FORSTÆRKET. EKSTRA HOLDBARHED

En trelags non-stick belægning med keramisk forstærkning. Tilsætningen af keramik sikrer fremragende vedhæftning mellem lagene, og giver belægningen dens langvarige holdbarhed, slid- og korrosionsbestandighed til intensiv brug.

🇬🇧 CERAMIC REINFORCED. EXTRA DURABILITY

A three-layer non-stick coating with ceramic reinforcement. The addition of ceramic ensures excellent adhesion between the layers, and gives the coating its long-lasting durability, abrasion and corrosion resistance for intensive use.

CAST ALUMINIUM

🇩🇰 STØBT ALUMINIUM

VARMEISOLERING. ENERGIBESPARELSE

Støbt aluminium formes i en tyk form for bedste varmefordeling og varmeisolering, hvilket sparer dig for energi og giver den fremragende holdbarhed.

🇬🇧 CAST ALUMINIUM

COOK & CHEF INSTITUTE

VORES ORGANISATION

KREATIVITET, INNOVATION & FORSKNING I KØKKENET

Cook & chef - instituttet er grundlagt ved at flere fremtrædende personer inden for internationalt haute cuisine og Bergner, er gået sammen for at dele strategisk tænkning om madlavning og teknologisk innovation inden for køkkenudstyr.

Cook & Chef - instituttet bidrager til bedre information og fødevarer sikkerhed over for forbrugerne. Et udvalg af kokke fra instituttet udvælger og anbefaler produkter, der har været igennem omfattende kvalitetskontrol.

Cook & Chef - instituttets grundlag fremmer forskningen og varetager projekter i brugen af nye materialer og belægninger, samt anvendeligheden og ergonomien i produkter inden for fødevarer-, gastronomi- og køkkengrejssektoren.

OUR FOUNDATION

CREATIVITY, INNOVATION & SCIENCE IN THE KITCHEN

The Cook & Chef Institute is a foundation comprised of figures from the world of international Haute Cuisine and Bergner who have come together to share strategic thinking about cooking and technological innovation in kitchenware.

The Cook & Chef Institute in order to contribute to reinforcing food safety guarantees for consumers and to improve information transparency, chooses and recommends products which have been subject to a prio full and comprehensive audit by a committee of chefs from the Institute.

The Cook & Chef Institute foundation fosters research agreements and undertakes projects related to the use of new materials and coatings, as well as the usability and ergonomics of the kitchenware products in the food, gastronomy and kitchen appliance sectors.

VORES KVALITETS STEMPEL

C&C kvalitetsstempet er udviklet af et ekspertudvalg og er et førende globalt mærke, der garanterer kvaliteten på de produkter, som er godkendt af instituttet.

Vores C&C kvalitetsstempel giver dine kunder sikkerhed for, at dine produkter er af højeste kvalitet. C&C -kvalitetsstempet er designet til at sørge for, at detailhandlere og kulinariske butikker leverer produkter og tjenester af ensartet kvalitet, hvilket ville hjælpe dem med at udvikle et stærkt brand over for deres forbrugere, og give en høj placering på markedet.

OUR QUALITY SEAL

Developed by a committee of experts the C&C Quality Seal is a market leading global brand that helps to build confidence in the products endorsed by the institute.

Our C&C Quality Seal set endorsement for good quality practice, and help provide assurance to your customers that your products are of the highest quality. The C&C Quality Seal was designed to help retailers and culinary centers to provide products and services of consistent quality, which would help them develop a powerful brand image towards their consumers, in addition to high marketplace positioning.

MASTERPRO, ET MÆRKE DER ER ENGAGERET I MILJØET OG SAMFUNDET

I forbindelse med sit engagement i samfundet er Bergner Europe en del af BSCI (Business social compliance - initiativet), der garanterer at retningslinier bliver overholdt hos sine leverandører og sit engagement i at nå fælles internationale mål om forbedring af arbejdsforholdene i verden.

BSCI's adfærdskodeks har til formål at sikre sociale og miljømæssige standarder i overensstemmelse med ILO -aftalerne, FN's Verdenserklæring om Menneskerettigheder, FN's konvention om barnets rettigheder og eliminering af enhver form for forskelsbehandling af kvinder, FN's Global Compact og OECD's retningslinjer for multinationale virksomheder og andre relevante internationalt anerkendte aftaler.

MASTERPRO, A BRAND COMMITTED TO THE ENVIRONMENT AND SOCIETY

In response to its commitment to society, Bergner Europe is a member of the BSCI (Business social compliance initiative) which guarantees the application of a specific code of conduct in its relations with its suppliers and its commitment to the achievement of this common international objective to improve working conditions in the world.

The BSCI Code of Conduct aims to achieve the fulfilment of certain social and environmental standards, in compliance with the ILO agreements, the Universal Declaration of Human Rights of the United Nations, The United Nations Convention on the Rights of the Child and the elimination of every form of discrimination against women, the UN Global Compact and the OECD Guidelines for Multinational Enterprises and other relevant internationally recognised agreement.

PÅFORKANT MED FAGLIGHEDEN

Helt fra begyndelsen har Masterpro repræsenteret en revolution i den kulinariske verden, og som pioner i at bringe det professionelle køkken ud til forbrugeren.

Mærkets brede udvalg af kollektioner dækker en lang række kulinariske teknikker og koncepter. Bagning, stegning, grillning ... alle disse teknikker er forskellige og kræver alle forskellige modeller og forskellige materialer. I Masterpro har vi dem alle. Vi har fra starten af vores eksistens været i spidsen for professionalisme.

AT THE FOREFRONT OF PROFESSIONALISM

Ever since its beginnings, Masterpro has represented a revolution in the culinary world, as a pioneer in bringing the world of professional cuisine to the end consumer.

The brand's wide range of collections covers a large variety of culinary techniques and concepts. Baking, frying, grilling... all of these techniques are different and all require different collections and different materials. In Masterpro we have them all. From our beginnings, our raison has been

INNOVATION OG PRAKTISK

Siden den dag, vi startede, har fremtiden været vores mål. Det mest fantastiske ved Masterpro er balancen mellem innovation og det praktiske i kollektionerne.

Hvad er de perfekte ingredienser til at opnå dette? Lidenskab, professionalisme og teknologi.

INNOVATION AND PRACTICALITY

Since the day we started, the future has been our objective. The most amazing thing about Masterpro is the balance achieved between innovation and practicality in its collections.

What are the perfect ingredients to achieve this? Passion, professionalism and technology.

Materiale Guide

MULTI PLY

FLERE LAG. HOLDER PÅ VARMEN

3-ply / 5-ply samler flere lag af materialerne aluminium og rustfri stål. Varmen fordeles effektivt og giver produktet den bedste ydeevne.

MULTI PLY

MULTIPLE LAYERS. GREAT HEAT RETENTION

3-Ply / 5-Ply bring together multiple layers of material including Aluminium and Stainless Steel. Heat conducts efficiently, keeping the entire cookware in its best performance.

PRESSET ALUMINIUM

LAV VÆGT. HURTIG VARMEDISTRIBUTION

Presset aluminium benytter komprimeringskraft til at forme et køkkengrej af ét stykke aluminium, resultatet er en meget hurtigt opvarmet køkkengrej.

PRESSED ALUMINIUM

LIGHT WEIGHT. QUICK HEAT DISTRIBUTION

Press aluminium utilizes compressive force to shape a cookware from a sheet of aluminium, the result is a very quick-heating cookware.

SMEDET ALUMINIUM

JÆVN VARMEFORDDELING. RUSTFRI

Smedet aluminium af en tyk base, med forbedret og jævn fordeling af varmen i køkkengrejet, uden at lave hot spots.

FORGED ALUMINIUM

EVEN HEAT DISTRIBUTION. CORROSION RESISTANT

Forged Aluminium is unique in shaping a thick base, evenly enhancing heat distribution of the cookware with no hot spots.

STØBT ALUMINIUM

VARMEISOLERING. ENERGIBESPARELSE

Støbt aluminium formes i en tyk form for bedste varmfordeling og varmeisolerings, hvilket sparer dig for energi og giver fremragende holdbarhed.

CAST ALUMINIUM

HEAT RETENTION. ENERGY SAVING

Cast Aluminium can be moulded into a thick strategic shape for the best heat distribution and retention, saving you energy and giving you excellent durability.

RUSTFRIT STÅL

ENERGIBESPARELSE. JÆVN VARMEFORDDELING

Rustfrit stål er et usædvanligt holdbart materiale, der er praktisk talt umuligt at slide op. Med en aluminium kapslet bund, der er limet, har det en god varmeledningsevne.

STAINLESS STEEL

HEAT RETENTION. ENERGY SAVING

Stainless Steel is an exceptionally durable material that is virtually impossible to wear. Bonded with an aluminium capsuled bottom, it boasts satisfying heat conductivity.

18/10 RUSTFRIT STÅL

HOLDER PÅ VARMEN. JÆVN VARMEFORDDELING

18/10 rustfri stål indeholder mere krom og nickel end almindelig rustfri stål, hvilket forhindrer rustdannelse og bevarer en skinnende overflade. 18/10 Rustfrit stål er et usædvanligt holdbart materiale, der er praktisk talt umuligt at slide op. Med en aluminium kapslet bund, der er limet, har det en god varmeledningsevne.

18 /10 STAINLESS STEEL

HEAT RETENTION. ENERGY SAVING

18/10 Stainless Steel contains more chromium and nickel than ordinary stainless steel, which prevents rust formation and preserves a shiny surface. 18/10 Stainless Steel is an exceptionally durable material that is virtually impossible to wear. Bonded with an aluminium capsuled bottom, it boasts satisfying heat conductivity.

Material Guide

CARBON STÅL

HOLDBAR. HOLDER PÅ VARMEN

Carbonstål er en ståltipe med kulfiber indhold. Carbonstål har stor holdbarhed og varmebestandighed. Når det er kraftigt opvarmet, bevarer carbon stålet varmen i meget lang tid, hvilket sparer dig for en masse energi.

CARBON STEEL

DURABLE. HEAT RETENTION

Carbon Steel has great durability and heat retention capability. Once thoroughly heated, the heavy-duty carbon steel cookware retains heat for a very long time, saving you a great deal of energy.

STØBEJERN

HOLDER PÅ VARMEN. PERFEKT TIL SIMREMAD

Støbejern er et af de bedste materialer med hensyn til varmebestandighed og fordeling. Det foretrukne valg for professionelle kokke ved langvarig madlavning. Materialet er utroligt holdbart.

CAST IRON

HEAT RETENTION. GREAT FOR SLOW COOKING

Cast Iron is one of the best materials in terms of heat retention and distribution. It is a common choice for professional chefs for long duration cooking. The material is incredibly durable.

HÅRDT ANODISERET

HÆRDET TIL AT HOLDE. EKSTRA HOLDBAR

Hårdt anodiseret aluminium er en hærdet variant af aluminium med en meget lang levetid og ridsefasthed. Dette er det mest holdbare køkkengrejmateriale, der findes.

HARD ANODIZED

HARDENED TO LAST. EXTRA DURABLE

Hard Anodized Aluminium is a hardened variant of aluminium with a very long life-span and scratch resistance. This is hands down the most durable cookware material available.

STENTØJ

STÆRKT OG HOLDBART

Fremstillet af den mest robuste lertype. Modstandsdygtig over for slag, ridser og pletter. Hærdet ved 1300 ° C. Fremragende termisk modstandsdygtighed: det kan klare temperaturer fra -18°C til +260°C. Let materiale. Perfekt til daglig brug. Direkte fra fryseren til ovnen. Undgå termiske kontraster.

STONEWARE

STRONG AND DURABLE

Made from the most robust type of clay. Resistant to chipping, scratches and stains. Baked at 1300 ° C. Excellent thermal resistance: it admits temperatures of -18 ° C and +260 ° C. Light weight. Perfect for daily use. Directly from the freezer to the oven. Avoid thermal contrasts.

BOROSILIKATGLAS

TERMISK HÆRDET. PERFEKT GENNEMSIGTIGHED

Borosilikatglas har perfekt gennemsigtighed og er hærdet ved termisk behandling. Med sin styrke og varmebestandighed er dette materiale velegnet til bagværk og andet kogegrej.

BOROSILICATE GLASS

THERMALLY TOUGHENED. PERFECT TRANSPARENCY

Borosilicate glass features perfect transparency and is toughened by thermal treatment. With its strength and heat resistance, this material is well suited for bakeware and other cooking utensils.
